By far the most popular screen that we've ever made, the Zero Edge® frame style was created to give the screen an aesthetic appeal for the first time ever.

# It is Kind of a Big Deal

## Contrast Enhancement

Mankind is no longer forced to turn the lights off to enjoy the big screen experience. Zero Edge® with Slate® rejects up to 65% of the ambient light in your environment which allows you to leave the lights on when watching the game, movies, playing video games, and more.

## A Really Big Deal

5 Series Zero Edge® is available in sizes up to 200-inches diagonally, without a seam. Even with all that size, we have nearly eliminated logistics concerns such as elevators and other tight spaces due to our packaging methods which allows a 200-inch screen to break down into a 13-inch tall by 110-inch long box.

## Zero Edge® Frame Style

Minimizing the 3.5" bezel down to a mere 3/8" bezel creates a more aesthetically pleasing look, and allows projection screens, for the first time ever, to be incorporated into the design of a room. Since we created the category, Zero Edge® has been a fan-favorite of designers, home integrators and end-users alike.

## LED Backlighting

Aside from looking really cool, our LED backlighting option on Zero Edge® can actually improve your viewing experience. On large screens transitions from dark to bright scenes can cause eye strain as your iris struggles to quickly open and close. Backlighting helps to ease these transitions by providing a more consistent viewing experience.

### Frame

- Aluminum extrusion with 3/8ths inch "Zero Edge" style bezel
- Optional LED backlighting system

### Materials

Slate / Short Throw\*\* / Maestro / Pure Slate Perf. / Pure Perf.

### Sizes\*

- Max: 200" (5,080mm) in 16:9
- Max: 250" (6,350mm) in 2.35:1
- Available in 1-inch increments

### Aspect Ratios

16:9 / 16:10 / 2.35:1 / 17:9 / Custom

### Installation/Adjustment

Can be shipped unassembled requiring some assembly, or preassembled up to 133-inches.

\*All sizes are measured diagonally. Some materials may be limited in size. All dimensions are listed as seamless.

\*\*Rigid panel only.
