

3 FIXED

Solar Gray

Solar White

3 Series projector screens set the standard for performance and value and lead the industry with both Solar White and Gray 4k rated screen material options.

Performance and Value.

More Options.

Available in standard diagonals up to 205" in 16:9 as well as multiple other aspect ratios, 3 Series Fixed is a very versatile screen - perfectly suited for the value oriented customer who also needs a more custom solution.

EZ-Snap™ Tensioning

Our patented EZ-Snap™ tensioning system makes installation a breeze and ensures the flattest and tightest material mount on the market today. This system optimizes projector focus, producing sharper images as well as permanently eliminating any concerns about traditional "screen sag".

Quality and Value.

One of the most difficult things to do as a manufacturer is to provide high-quality product at affordable prices. 3 Series Fixed meets both of those objectives and gives the "every day man" access to the big screen experience.

Solar 4k.

Solar boasts a new emboss pattern that provides perfect color neutrality and zero sparkle. With active 3D, a super wide viewing angle with a bright, punchy image, Solar White and Gray is an excellent solution for dark environments where color perfection and uniformity are desired.

Frame

3.5" aluminium extrusion hand wrapped in velvet.

Materials

Solar White 1.3
Solar Gray .85

Sizes *

Minimum size: 80-inches.
Maximum size: 205-inches.

Aspect Ratios
